MEMORANDUM FOR: Director of Logistics, DDA

THROUGH: Deputy Director for Administration

ODP #81-1332

FROM:
Chief, Information Management Staff, DOSUBJECT: CRAFT - Systems Study REFERENCE: A. Sole-Source Procurement of Automation
Equipment for Project CRAFT (OL 1-2780a) B. FY 81-82 Testbed Acquisitions in Support
of Project CRAFT (OL 1 3768)

1. We have provided C/OL/ADP&EB, as requested in references A and B, a collection of materials comprising the CRAFT system study. We believe these materials encompass all of the information required to comply with the GSA Delegation of Procurement Authority, so that sole source acquisition of equipment may proceed for the DO's CRAFT testbed installations. This study also satisfies your need with respect to release of the Agency word processing standard RFP.

2. We appreciate your office's help in this endeavor, which the DO has been planning since 1976, with the assistance of several DDA components. Since the first briefing of the Executive Committee on CRAFT in April 1979, four testbeds have been installed. Two more will be installed soon. All of these, however, have been financed from reprogrammed funds and include only limited capabilities. FY-82 funds, in the amount of will permit the procurement of our first complete testbed. These funds were included in CIA's FY-82 budget following presentation of the accelerated CRAFT program to the Executive Committee in February 1980.

3. If you need further information or would like to discuss the system study, please contact Mr. C/SG/FAS
